## WORK EXPERIENCE

**Tech Mahindra**

June,2023 - Present

Associate Engineer

## SKILLS

- |            |                    |              |
|------------|--------------------|--------------|
| • PYTHON   | • MACHINE LEARNING | • LANGCHAIN  |
| • AZURE AI | • GENERATIVE AI    | • STATISTICS |
| • NUMPY    | • PANDAS           | • JAVASCRIPT |
| • NODEJS   | • JAVA             | • MATPLOTLIB |
| • SQL      | • C++              | • MONGO DB   |
| • REST API | • GIT              | • EXPRESS JS |
| • HTML     | • CSS              | • BOOTSTRAP  |

## PROJECTS

### LANGUAGE TRANSLATION (JAN 2024 - PRESENT)

- Currently engaged in the Language translation project for Microsoft.
- Working on R&D part of different open source LLM's for language translation.

### AI RECRUITMENT SOLUTION

- Problem statement:- Create an AI based solution for recruitment without any human interaction.
- Objective:- To create an AI based recruitment solution by using ChatGPT, LLM modules, and Azure OpenAI.
- Solutions:- Generating questions from ChatGPT, checking the answers provided by candidates through ChatGPT, and assigning scores to evaluate their communication skills. Based on this assessment, we can select candidates for onboarding.
