WORK EXPERIENCE

ZEN3 Infosolutions   June,2023 - Present
Associate Engineer

SKILLS

- PYTHON
- AZURE AI
- NUMPY
- NODEJS
- SQL
- REST API

- MACHINE LEARNING
- GENERATIVE AI
- PANDAS
- JAVA
- C++
- GIT

- LANGCHAIN
- JAVASCRIPT
- MATPLOTLIB
- MONGO DB
- EXPRESS JS
- BOOTSTRAP

PROJECTS

LANGUAGE TRANSLATION (JAN 2024 - PRESENT
- Currently engaged in the Language translation project for Microsoft.

AI RECRUITMENT SOLUTION
- Problem statement:- Create an AI based solution for recruitment without any human interaction.
- Objective:- To create an AI based recruitment solution by using ChatGPT, LLM modules, and Azure OpenAI.
- Solutions:- Generating questions from ChatGPT, checking the answers provided by candidates through ChatGPT, and assigning scores to evaluate their communication skills. Based on this assessment, we can select candidates for onboarding.

GROUP CHAT APPLICATION
CODE
Tech Stack: JavaScript, NodeJs, MySQL, AWS S3, HTML, CSS, REST API
- Developed a group chat application that enabled users to send messages in realtime to groups.
- Implemented login and sign-up authentication.
- Implemented an admin functionality that allowed administrators to create and delete users from groups, ensuring efficient management of user accounts.

CERTIFICATIONS

Microsoft Azure AI Fundamentals- AI-102, Microsoft

AI Blue Belt, TechMahindra

Machine Learning, Coursera

NodeJS - The Complete Guide, Udemy

Python 3 Programming, Coursera

EDUCATION

Bachelors in Engineering, Mechanical Engineering
BMS COLLEGE OF ENGINEERING
VTU| 2018 - 2022 | CGPA: 8.46

12th
Vikas PU College
Percentage: 85.1 | 2017 -2018 | PCMC (Computer Science)

ACHIEVEMENT

Governor Award Winner for exemplary performance at Rajya Puraskar examinations held at State level.
